SAFETY DATA SHEET

Date of issue 5th November 2020

1. IDENTIFICATION OF SUBSTANCE & SUPPLIER

Product name: Apple Cologne

Other names: Alcohol based pet coat cologne

Company Name: Tani's Mobile Doggy Wash

Address: -

Phone: 0434256817

Recommended Use: Pet cologne

Restrictions on use: This is a pet care, grooming product that is safe for consumers and other

users under normal and reasonably foreseeable use.

Emergency Advice: Poisons Information Centre 13 1126

2. HAZARD IDENTIFICATION

GHS classification: Flammable liquid. Category 3

Serious eye damage/ eye irritation. Category 2

HazChem code: .3Y

Hazard pictograms:

Signal word: WARNING

Hazard Statements: H226 Flammable liquid and vapour.

H319 Causes serious eye irritation.

Precautionary statements: Prevention:

P102 Keep out of reach of children

P210 Keep away from heat, sparks, open flames, hot surfaces. No smoking

P211 Do not spray on open flame or other ignition source.

P233 Keep container tightly closed.

P243 Take precautionary measures against static discharge.

P261 Avoid breathing mist, vapour or spray.

EMERGENCY OVERVIEW

Physical description & colour: Clear liquid

Colour: Clear

Odour: Pleasant apple fragrance

Major Health Hazards: Eye irritant

POTENTIAL HEALTH EFFECTS

Inhalation:

Short term exposure: Significant inhalation exposure considered unlikely. May cause slight irritation, unlikely to cause anything more than slight discomfort.

Long term exposure: No data for health effects associated with long term inhalation.

Skin contact:

Short term exposure: Available data indicates that this product is not harmful. However, it may cause slight irritation

Long term exposure: No data for health effects associated with long term exposure.

Eye contact:

Short term exposure: Exposure to eyes is considered unlikely. This product is an eye irritant. Symptoms may include stinging & reddening of the eyes & watering which may become copious. Other symptoms may also become evident. If exposure is brief symptoms should disappear once exposure has ceased. However lengthy exposure or delayed treatment may cause permanent damage.

Long term exposure: No data for health effects associated with long term exposure.

Ingestion:

Short term ingestion: Significant oral exposure is considered unlikely. However, this product is believed to be mildly irritating to mucous membranes, but unlikely to cause anything more than mild discomfort.

Long term exposure: No data for health effects associated with long term ingestion.

Carcinogenic status:

No significant constituent is classified as carcinogenic.

3. COMPOSITION / INFORMATION ON CONSTITUENTS

Chemical Name:	CAS#	Proportion
Ethyl Alcohol	64-17-5	>60%
Other constituents deemed non-hazardous		To 100%

4. FIRST AID MEASURES

<u>Swallowed:</u> DO NOT induce vomiting rinse mouth with fresh water. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eyes: Flush eyes with copious amounts of water for 15 minutes. Seek medical attention.

Skin: Wash skin thoroughly with soap and water. Seek medical advice if effects persist.

<u>Inhaled</u>: Remove affected person from exposure to fresh air. If breathing becomes difficult give oxygen. If not breathing apply artificial respiration. Seek prompt medical assistance.

Advice to Doctor: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media: This material is flammable, use water spray, alcohol resistant foam, dry chemical, carbon dioxide.

Specific hazards: Do not use solid water stream as it may scatter and spread the fire.

Fire Fighting precautions: Fire fighters should wear full protective clothing & self-contained breathing apparatus to minimize exposure. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Remove undamaged containers from the area when safe to do so.

6. ACCIDENTAL RELEASE MEASURES

Spills & Disposal: Remove all sources of ignition. Wear full protective clothing when attending spills.

Prevent entry into the sewer, drainage system & waterways. Contain & collect with inert absorbent

material such as sand or soil. Ensure disposal conforms to local waste disposal conditions.

7. HANDLING AND STORAGE

Storage & Transport: Store in a cool, dry, well ventilated area. Keep containers closed when not in

use.

Handling: Repeated or prolonged exposure to product without protective clothing should be avoided to prevent possible tissue damage. It is essential that those who come into contact with the product

maintain a good standard of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or

going to the toilet.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Standards: As with all chemicals exposure should be kept to a minimum.

Components with workplace control parameters

Ethyl Alcohol – TWA 1000ppm. 1880mg/m3

STEL 1000ppm

Engineering Controls: Provide sufficient ventilation. Use exhaust ventilation if required.

<u>Personal Protection:</u> Wear chemical resistant goggles or glasses. Wash hands after using.

Flammability: Product is flammable

9. IDENTIFICATION

Physical Description/ Chemical Properties

Appearance: Clear liquid

Colour: Clear

Odour: Pleasant apple fragrance

4

pH: 5.0 - 7.0

Vapour Pressure (mmHg @20C): No data available.

Vapour Density (air = 1): No data available.

Boiling Point: 78C.

Freezing/Melting Point: No data available.

Solubility in Water: Completely soluble

Specific Gravity (gm/ml @20C): 0.8

Flash Point: 18.0C +/- 2C

Flammability Limits (%): No data available.

Auto Ignition Temperature: No data available.

Percent Volatiles: No data available.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use & storage.

Materials to Avoid: Oxidizing agents.

Conditions to avoid: Heat, flames and sparks.

11. TOXILOGICAL INFORMATION

Exposure routes: Inhalation

Skin contact

Ingestion

Eye contact

Acute toxicity: Not classified based on available information.

Components:

Ethyl alcohol: Acute oral toxicity: LD50 (rat): >5000mg/kg

Acute inhalation toxicity: LC50 (rat): 124.7mg/L 4hour exposure vapour

<u>Carcinogenicity</u> Not classified based on available information.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Do not allow product to enter sewers, drains or waterways.

Biodegradability: Readily biodegradable

Mobility in soil: No data available.

13. DISPOSAL CONSIDERATIONS

Disposal Methods: Ensure disposal conforms to local waste disposal regulations.

14. TRANSPORT INFORMATION

UN Number: 1993 Proper Shipping Name: ALCOHOLS, N.O.S.

D/G Class: 3 Subsidiary Risk: N/A

Packing Group: 11 HazChem Code: .3Y

Special Precautions for User: Nil

15. REGULATORY INFORMATION

Poison schedule: Not listed

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

16. OTHER INFORMATION

Date of Preparation: 4th November 2020

Issue Date: 5th November 2020

Supersedes:

Reason for Update: New product release to comply with Global Harmonized System.

The information sourced for the preparation of this document was correct and complete at the time of writing, to the best of the writer's knowledge. The document represents the commitment to the company's responsibilities surrounding the supply of this

product, undertaken in good faith. This document should be taken as a safety guide for the product and its intended use but is in no way an absolute authority. Please consult the relevant legislation and regulations governing the use and storage of this product.

SAFETY DATA SHEET

Date of issue 17th September 2020

1. IDENTIFICATION OF SUBSTANCE & SUPPLIER

Product name: N.T.F.K (Non Toxic Flea Killer)

Other names: Non Toxic Flea & Tick shampoo, Flea shampoo

Company Name: Tani's Mobile Doggy Wash

Address: -

Phone: 0434256817

Recommended Use: Shampoo for dogs, cats & horses

Restrictions on use: This is a specially formulated pet cleansing product that is safe for consumers

and other users under normal and reasonably foreseeable use.

Emergency Advice: Poisons Information Centre 13 1126

2. HAZARD IDENTIFICATION

ADG Classification: Not dangerous goods according to Australian Dangerous Goods (ADG) Code

Hazard statement: Not classified as HAZARDOUS according to the criteria of Safe Work Australia

(SWA)

GHS classification: Eye irritation - 2A

Skin Irritation. Category 2

HazChem code:

Hazard pictograms:

Signal word: WARNING

Hazard Statements:		
		H303 May be harmful if swallowed
		H316 Causes mild skin irritation H320 Causes eye irritation
Precautionary statements	:	Prevention:
		P102 Keep out of reach of children
		P264 Wash contacted areas thoroughly after handling.
		P280 Wear protected gloves, protective clothing & eye or face protection.
		Response:
		P310 Immediately call a POISONS CENTRE 131 126, or doctor.
		P302 + P352 If on skin wash with plenty of water. P362 + P364 Take off contaminated clothing and wash them before reuse.
		P305 + P351 + P338 IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do, continue rinsing.
		P332 + P313 If skin irritation occurs, get medical advice.
EMERGENCY OVERVIEW		
Physical description:	Liquid.	
Colour:	Green	
Odour:	Pleasant fragrance	
Major Health Hazards:	Skin Irr	itation. Serious eye damage/ eye irritation.

POTENTIAL HEALTH EFFECTS

Inhalation:

Short term exposure: Significant inhalation exposure considered unlikely. May cause slight irritation, unlikely to cause anything more than slight discomfort.

Long term exposure: No data for health effects associated with long term inhalation.

Skin contact:

Short term exposure: May cause irritation

Long term exposure: No data for health effects associated with long term exposure.

Eye contact:

Short term exposure: Exposure to eyes is considered unlikely. This product is an eye irritant. Symptoms may include stinging & reddening of the eyes & watering which may become copious. Other symptoms may also become evident. If exposure is brief symptoms should disappear once exposure has ceased. However lengthy exposure or delayed treatment may cause permanent damage.

Long term exposure: No data for health effects associated with long term exposure.

Ingestion:

Short term ingestion: Significant oral exposure is considered unlikely. However, this product is irritating to mucous membranes, DO NOT induce vomiting wash mouth with water and give water to drink.

Long term exposure: No data for health effects associated with long term ingestion.

Carcinogenic status:

No significant constituent is classified as carcinogenic.

3. COMPOSITION / INFORMATION ON CONSTITUENTS

Chemical Name:	CAS#	Proportion
Anionic surfactant blend	Commercial secret	<10%
Nonionic surfactant blend	Commercial secret	<10%
Other constituents deemed non-hazard	<5%	
Water		To 100%

4. FIRST AID MEASURES

<u>Swallowed:</u> **DO NOT** induce vomiting rinse mouth with fresh water. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eyes: Flush eyes with copious amounts of water for 15 minutes. Seek medical attention.

Skin: Wash skin thoroughly with soap and water. Seek medical advice if effects persist.

<u>Inhaled</u>: Remove affected person from exposure to fresh air. If breathing becomes difficult give oxygen. If not breathing apply artificial respiration. Seek prompt medical assistance.

Advice to Doctor: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media: This material not flammable, extinguishing media suitable for burning materials.

Specific hazards: The major hazard in fires is the inhalation of heated or toxic fire gases.

Fire Fighting precautions: Fire fighters should wear full protective clothing & self-contained breathing apparatus to minimize exposure. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Remove undamaged containers from the area when safe to do so.

6. ACCIDENTAL RELEASE MEASURES

Spills & Disposal: Minor spills do not normally require any special cleanup measures. Wear full protective clothing when attending spills. In the event of a major spillage prevent entry into the sewer, drainage system & waterways. Contain & collect with inert absorbent material such as sand or soil. Ensure disposal conforms to local waste disposal conditions.

7. HANDLING AND STORAGE

Storage & Transport: Store in a cool, dry, well ventilated area. Keep containers closed and tightly sealed when not in use.

Handling: Repeated or prolonged exposure to product without protective clothing should be avoided to prevent possible tissue damage. It is essential that those who come into contact with the product maintain a good standard of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or going to the toilet.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

<u>Personal Protection:</u> Wear chemical resistant clothing gloves, goggles or glasses. Wash hands after using.

The following WSA standards will provide general advice regarding safety clothing & equipment.

Respiratory equipment: AS/NZA 1715

Protective gloves: AS 2161 Industrial clothing:

AS 2919

Eye protection: AS 1336, AS/NZS 1337

Protective footwear: AS/NZS 2210

Exposure Standards: As with all chemicals exposure should be kept to a minimum.

Engineering Controls: Provide sufficient ventilation. Use exhaust ventilation if required. **Flammability:**

Product is non-flammable

9. IDENTIFICATION

Physical Description/ Chemical Properties

Appearance: Liquid

Colour: Green

Odour: Pleasant fragrance

pH: 6.0 - 7.5

Vapour Pressure (mmHg @20C): No data available.

Vapour Density (air = 1): No data available.

Boiling Point: 100C approx.

Freezing/Melting Point: <0C.

Solubility in Water: Completely soluble.

Specific Gravity (gm/ml @20C): 1.00 - 1.04

Flash Point: No data available

Flammability Limits (%): No data available.

Auto Ignition Temperature: Does not burn.

Percent Volatiles: No data available.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use & storage.

Materials to Avoid: Oxidizing agents.

Fire decomposition: Only small quantities of decomposition products are expected from this product

at temperatures normally associated with fires.

11. TOXILOGICAL INFORMATION

Exposure routes: Inhalation – No significant effect or hazards

Skin contact - Irritant

Eye contact – Irritant

Acute toxicity: Low oral toxicity LD50: >10,000mg/kg

<u>Carcinogenicity</u> Not classified based on available information.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Do not allow product to enter sewers, drains or waterways.

<u>Biodegradability:</u> Readily biodegradable

Mobility in soil: Will not accumulate in soil or cause long term problems.

13. DISPOSAL CONSIDERATIONS

Disposal Methods: Ensure disposal conforms to local waste disposal regulations.

14. TRANSPORT INFORMATION

NOT CLASSIFIED AS DANGEROUS GOODS

P102 Keep out of reach of children

P264 Wash contacted areas thoroughly after handling.

P280 Wear protected gloves, protective clothing & eye or face

protection.

Response:

P310 Immediately call a POISONS CENTRE 131 126, or doctor.

P302 + P352 If on skin wash with plenty of water.

P362 + P364 Take off contaminated clothing and wash them

before reuse.

P305 + P351 + P338 IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to

do, continue rinsing.

P332 + P313 If skin irritation occurs, get medical advice.

EMERGENCY OVERVIEW

Physical description: Liquid.

Colour: Pink

Odour: Pleasant candy fragrance

Major Health Hazards: Skin Irritation. Serious eye damage/ eye irritation.

POTENTIAL HEALTH EFFECTS

Inhalation:

Short term exposure: Significant inhalation exposure considered unlikely. May cause slight irritation, unlikely to cause anything more than slight discomfort.

Long term exposure: No data for health effects associated with long term inhalation.

Skin contact:

Short term exposure: May cause irritation

Long term exposure: No data for health effects associated with long term exposure.

Eye contact:

Short term exposure: Exposure to eyes is considered unlikely. This product is an eye irritant. Symptoms may include stinging & reddening of the eyes & watering which may become copious. Other symptoms may also become evident. If exposure is brief symptoms should disappear once exposure has ceased. However lengthy exposure or delayed treatment may cause permanent damage.

Long term exposure: No data for health effects associated with long term exposure.

Ingestion:

Short term ingestion: Significant oral exposure is considered unlikely. However, this product is irritating to mucous membranes, DO NOT induce vomiting wash mouth with water and give water to drink.

Long term exposure: No data for health effects associated with long term ingestion.

Carcinogenic status:

No significant constituent is classified as carcinogenic.

3. COMPOSITION / INFORMATION ON CONSTITUENTS

Chemical Name:	CAS#	Proportion
Anionic surfactant blend	Commercial secret	<10%
Nonionic surfactant blend	Commercial secret	<10%
Other constituents deemed non-hazardo	<5%	
Water		To 100%

4. FIRST AID MEASURES

Swallowed: DO NOT induce vomiting rinse mouth with fresh water. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eyes: Flush eyes with copious amounts of water for 15 minutes. Seek medical attention.

Skin: Wash skin thoroughly with soap and water. Seek medical advice if effects persist.

<u>Inhaled</u>: Remove affected person from exposure to fresh air. If breathing becomes difficult give oxygen. If not breathing apply artificial respiration. Seek prompt medical assistance.

Advice to Doctor: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media: This material not flammable, extinguishing media suitable for burning materials.

Specific hazards: The major hazard in fires is the inhalation of heated or toxic fire gases.

Fire Fighting precautions: Fire fighters should wear full protective clothing & self-contained breathing apparatus to minimize exposure. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Remove undamaged containers from the area when safe to do so.

6. ACCIDENTAL RELEASE MEASURES

Spills & Disposal: Minor spills do not normally require any special cleanup measures. Wear full protective clothing when attending spills. In the event of a major spillage prevent entry into the sewer, drainage system & waterways. Contain & collect with inert absorbent material such as sand or soil. Ensure disposal conforms to local waste disposal conditions.

7. HANDLING AND STORAGE

Storage & Transport: Store in a cool, dry, well ventilated area. Keep containers closed and tightly sealed when not in use.

Handling: Repeated or prolonged exposure to product without protective clothing should be avoided to prevent possible tissue damage. It is essential that those who come into contact with the product

maintain a good standard of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or going to the toilet.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

<u>Personal Protection:</u> Wear chemical resistant clothing gloves, goggles or glasses. Wash hands after using.

The following WSA standards will provide general advice regarding safety clothing & equipment.

Respiratory equipment: AS/NZA 1715

Protective gloves: AS 2161 Industrial

clothing: AS 2919

Eye protection: AS 1336, AS/NZS 1337

Protective footwear: AS/NZS 2210

Exposure Standards: As with all chemicals exposure should be kept to a minimum.

Engineering Controls: Provide sufficient ventilation. Use exhaust ventilation if required.

Flammability: Product is non-flammable

9. IDENTIFICATION

Physical Description/ Chemical Properties

Appearance: Liquid

Colour: Pink

Odour: Pleasant candy fragrance

pH: 6.0 – 7.5

Vapour Pressure (mmHg @20C): No data available.

Vapour Density (air = 1): No data available.

Boiling Point: 100C approx.

Freezing/Melting Point: <0C.

Solubility in Water: Completely soluble.

Specific Gravity (gm/ml @20C): 1.00 – 1.04

Flash Point: No data available

Flammability Limits (%): No data available.

Auto Ignition Temperature: Does not burn.

Percent Volatiles: No data available.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use & storage.

Materials to Avoid: Oxidizing agents.

Fire decomposition: Only small quantities of decomposition products are expected from this product

at temperatures normally associated with fires.

11. TOXILOGICAL INFORMATION

Exposure routes: Inhalation – No significant effect or hazards

Skin contact - Irritant

Eye contact – Irritant

Acute toxicity: Low oral toxicity LD50: >10,000mg/kg

<u>Carcinogenicity</u> Not classified based on available information.

12. ECOLOGICAL INFORMATION

<u>Ecotoxicity:</u> Do not allow product to enter sewers, drains or waterways.

Biodegradability: Readily biodegradable

Mobility in soil: Will not accumulate in soil or cause long term problems.

13. DISPOSAL CONSIDERATIONS

Disposal Methods: Ensure disposal conforms to local waste disposal regulations.

14. TRANSPORT INFORMATION

NOT CLASSIFIED AS DANGEROUS GOODS

UN Number: N/A Proper Shipping Name: N/A

D/G Class: N/A Subsidiary Risk: N/A

Packing Group: N/A HazChem Code: N/A

Special Precautions for User: Nil

15. REGULATORY INFORMATION

Poison schedule: Not listed

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

16. OTHER INFORMATION

Date of Preparation: 6th August 2020

Issue Date: 17th September 2020

Supersedes:

Reason for Update: Released in compliance with Global Harmonized System.

Please consult the relevant legislation and regulations governing the use and storage of this product.

SAFETY DATA SHEET

Date of issue 17th September 2020

1. IDENTIFICATION OF SUBSTANCE & SUPPLIER

Product name: Coconut Cologne

Other names: Alcohol based pet coat cologne

Company Name: Tani's Mobile Doggy Wash

Address: -

Phone: 0434256817

Recommended Use: Pet cologne

Restrictions on use: This is a pet care, grooming product that is safe for consumers and other

users under normal and reasonably foreseeable use.

Emergency Advice: Poisons Information Centre 13 1126

2. HAZARD IDENTIFICATION

GHS classification: Flammable liquid. Category 3

Serious eye damage/ eye irritation. Category 2

HazChem code: .3Y

Hazard pictograms:

Signal word: WARNING

Hazard Statements: H226 Flammable liquid and vapour.

H319 Causes serious eye irritation.

Precautionary statements: Prevention:

P102 Keep out of reach of children

P210 Keep away from heat, sparks, open flames, hot surfaces. No smoking

P211 Do not spray on open flame or other ignition source.

P233 Keep container tightly closed.

P243 Take precautionary measures against static discharge.

P261 Avoid breathing mist, vapour or spray.

EMERGENCY OVERVIEW

Physical description & colour: Slightly coloured liquid

Colour: Slightly coloured

Odour: Pleasant coconut fragrance

Major Health Hazards: Eye irritant

POTENTIAL HEALTH EFFECTS

Inhalation:

Short term exposure: Significant inhalation exposure considered unlikely. May cause slight irritation, unlikely to cause anything more than slight discomfort.

Long term exposure: No data for health effects associated with long term inhalation.

Skin contact:

Short term exposure: Available data indicates that this product is not harmful. However, it may cause slight irritation

Long term exposure: No data for health effects associated with long term exposure.

Eye contact:

Short term exposure: Exposure to eyes is considered unlikely. This product is an eye irritant. Symptoms may include stinging & reddening of the eyes & watering which may become copious. Other symptoms may also become evident. If exposure is brief symptoms should disappear once exposure has ceased. However lengthy exposure or delayed treatment may cause permanent damage.

Long term exposure: No data for health effects associated with long term exposure.

Ingestion:

Short term ingestion: Significant oral exposure is considered unlikely. However, this product is believed to be mildly irritating to mucous membranes, but unlikely to cause anything more than mild discomfort.

Long term exposure: No data for health effects associated with long term ingestion.

Carcinogenic status:

No significant constituent is classified as carcinogenic.

3. COMPOSITION / INFORMATION ON CONSTITUENTS

Chemical Name:	CAS#	Proportion
Ethyl Alcohol	64-17-5	>60%
Other constituents deemed non-hazardous		To 100%

4. FIRST AID MEASURES

<u>Swallowed:</u> DO NOT induce vomiting rinse mouth with fresh water. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eyes: Flush eyes with copious amounts of water for 15 minutes. Seek medical attention.

Skin: Wash skin thoroughly with soap and water. Seek medical advice if effects persist.

<u>Inhaled</u>: Remove affected person from exposure to fresh air. If breathing becomes difficult give oxygen. If not breathing apply artificial respiration. Seek prompt medical assistance.

Advice to Doctor: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media: This material is flammable, use water spray, alcohol resistant foam, dry chemical, carbon dioxide.

Specific hazards: Do not use solid water stream as it may scatter and spread the fire.

Fire Fighting precautions: Fire fighters should wear full protective clothing & self-contained breathing apparatus to minimize exposure. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Remove undamaged containers from the area when safe to do so.

6. ACCIDENTAL RELEASE MEASURES

Spills & Disposal: Remove all sources of ignition. Wear full protective clothing when attending spills.

Prevent entry into the sewer, drainage system & waterways. Contain & collect with inert absorbent

material such as sand or soil. Ensure disposal conforms to local waste disposal conditions.

7. HANDLING AND STORAGE

Storage & Transport: Store in a cool, dry, well ventilated area. Keep containers closed when not in

use.

Handling: Repeated or prolonged exposure to product without protective clothing should be avoided to prevent possible tissue damage. It is essential that those who come into contact with the product

maintain a good standard of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or

going to the toilet.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Standards: As with all chemicals exposure should be kept to a minimum.

Components with workplace control parameters

Ethyl Alcohol – TWA 1000ppm. 1880mg/m3

STEL 1000ppm

Engineering Controls: Provide sufficient ventilation. Use exhaust ventilation if required.

Personal Protection: Wear chemical resistant goggles or glasses. Wash hands after using.

Flammability: Product is flammable

Eyes: Flush eyes with copious amounts of water for 15 minutes. Seek medical attention.

Skin: Wash skin thoroughly with soap and water. Seek medical advice if effects persist.

<u>Inhaled</u>: Remove affected person from exposure to fresh air. If breathing becomes difficult give oxygen. If not breathing apply artificial respiration. Seek prompt medical assistance.

Advice to Doctor: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media: This material is flammable, use water spray, alcohol resistant foam, dry chemical, carbon dioxide.

Specific hazards: Do not use solid water stream as it may scatter and spread the fire.

Fire Fighting precautions: Fire fighters should wear full protective clothing & self-contained breathing apparatus to minimize exposure. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Remove undamaged containers from the area when safe to do so.

6. ACCIDENTAL RELEASE MEASURES

Spills & Disposal: Remove all sources of ignition. Wear full protective clothing when attending spills. Prevent entry into the sewer, drainage system & waterways. Contain & collect with inert absorbent material such as sand or soil. Ensure disposal conforms to local waste disposal conditions.

7. HANDLING AND STORAGE

Storage & Transport: Store in a cool, dry, well ventilated area. Keep containers closed when not in use.

Handling: Repeated or prolonged exposure to product without protective clothing should be avoided to prevent possible tissue damage. It is essential that those who come into contact with the product maintain a good standard of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or going to the toilet.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Standards: As with all chemicals exposure should be kept to a minimum.

Components with workplace control parameters

Ethyl Alcohol – TWA 1000ppm. 1880mg/m3

STEL 1000ppm

Engineering Controls: Provide sufficient ventilation. Use exhaust ventilation if required.

<u>Personal Protection:</u> Wear chemical resistant goggles or glasses. Wash hands after using.

Flammability: Product is flammable

9. IDENTIFICATION

Physical Description/ Chemical Properties

Appearance: Slightly coloured liquid

Colour: Light yellow

Odour: Pleasant mango fragrance

pH: 5.0 - 7.0

Vapour Pressure (mmHg @20C): No data available.

Vapour Density (air = 1): No data available.

Boiling Point: 78C.

Freezing/Melting Point: No data available.

Solubility in Water: Completely soluble

Specific Gravity (gm/ml @20C): 0.8

Flash Point: 18.0C +/- 2C

Flammability Limits (%): No data available.

Auto Ignition Temperature: No data available.

Percent Volatiles: No data available.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use & storage.

Materials to Avoid: Oxidizing agents.

Conditions to avoid: Heat, flames and sparks.

11. TOXILOGICAL INFORMATION

Exposure routes: Inhalation

Skin contact

Ingestion

Eye contact

Acute toxicity: Not classified based on available information.

Components:

Ethyl alcohol: Acute oral toxicity: LD50 (rat): >5000mg/kg

Acute inhalation toxicity: LC50 (rat): 124.7mg/L 4hour exposure vapour

<u>Carcinogenicity</u> Not classified based on available information.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Do not allow product to enter sewers, drains or waterways.

Biodegradability: Readily biodegradable

Mobility in soil: No data available.

13. DISPOSAL CONSIDERATIONS

Disposal Methods: Ensure disposal conforms to local waste disposal regulations.

14. TRANSPORT INFORMATION

UN Number: 1993 Proper Shipping Name: ALCOHOLS, N.O.S.

D/G Class: 3 Subsidiary Risk: N/A

Packing Group: 11 HazChem Code: .3Y

Special Precautions for User: Nil

15. REGULATORY INFORMATION

Poison schedule: Not listed

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

16. OTHER INFORMATION

Date of Preparation: 4th November 2020

Issue Date: 5th November 2020

Supersedes:

Reason for Update: New product release to comply with Global Harmonized System.

The information sourced for the preparation of this document was correct and complete at the time of writing, to the best of the writer's knowledge. The document represents the commitment to the company's responsibilities surrounding the supply of this

product, undertaken in good faith. This document should be taken as a safety guide for the product and its intended use but is in no way an absolute authority. Please consult the relevant legislation and regulations governing the use and storage of this product.

SAFETY DATA SHEET

Date of issue 17th September 2020

1. IDENTIFICATION OF SUBSTANCE & SUPPLIER

Product name: Natures Violet

Other names: Natures violet shampoo, Purple whitening shampoo

Company Name: Tani's Mobile Doggy Wash

Address: -

Phone: 0434256817

Recommended Use: Shampoo for dogs, cats & horses

Restrictions on use: This is a specially formulated pet cleansing product that is safe for

consumers and other users under normal and reasonably foreseeable use.

Emergency Advice: Poisons Information Centre 13 1126

2. HAZARD IDENTIFICATION

ADG Classification: Not dangerous goods according to Australian Dangerous Goods (ADG) Code

Hazard statement: Not classified as HAZARDOUS according to the criteria of Safe Work Australia

(SWA)

GHS classification: Eye irritation - 2A

Skin Irritation. Category 2

HazChem code:

Signal word: WARNING

Hazard Statements:

H303 May be harmful if swallowed

H316 Causes mild skin irritation H320 Causes eye irritation

Precautionary statements: Prevention:

P102 Keep out of reach of children

P264 Wash contacted areas thoroughly after handling.

P280 Wear protected gloves, protective clothing & eye or face protection.

Response:

P310 Immediately call a POISONS CENTRE 131 126, or doctor.

P302 + P352 If on skin wash with plenty of water.

P362 + P364 Take off contaminated clothing and wash them

before reuse.

P305 + P351 + P338 IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do, continue rinsing.

P332 + P313 If skin irritation occurs, get medical advice.

EMERGENCY OVERVIEW

Physical description: Liquid.

Colour: Violet

Odour: Pleasant fragrance

Major Health Hazards: Skin Irritation. Serious eye damage/ eye irritation.

POTENTIAL HEALTH EFFECTS

Inhalation:

Short term exposure: Significant inhalation exposure considered unlikely. May cause slight irritation, unlikely to cause anything more than slight discomfort.

Long term exposure: No data for health effects associated with long term inhalation.

Skin contact:

Short term exposure: May cause irritation

Long term exposure: No data for health effects associated with long term exposure.

Eye contact:

Short term exposure: Exposure to eyes is considered unlikely. This product is an eye irritant. Symptoms may include stinging & reddening of the eyes & watering which may become copious. Other symptoms may also become evident. If exposure is brief symptoms should disappear once exposure has ceased. However lengthy exposure or delayed treatment may cause permanent damage.

Long term exposure: No data for health effects associated with long term exposure.

Ingestion:

Short term ingestion: Significant oral exposure is considered unlikely. However, this product is irritating to mucous membranes, DO NOT induce vomiting wash mouth with water and give water to drink.

Long term exposure: No data for health effects associated with long term ingestion.

Carcinogenic status:

No significant constituent is classified as carcinogenic.

3. COMPOSITION / INFORMATION ON CONSTITUENTS

Chemical Name:	CAS#	Proportion
Anionic surfactant blend	Commercial secret	<10%
Nonionic surfactant blend	Commercial secret	<10%
Other constituents deemed non-hazardous Commercial secret		<5%
Water		To 100%

4. FIRST AID MEASURES

<u>Swallowed:</u> DO NOT induce vomiting rinse mouth with fresh water. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eyes: Flush eyes with copious amounts of water for 15 minutes. Seek medical attention.

Skin: Wash skin thoroughly with soap and water. Seek medical advice if effects persist.

<u>Inhaled</u>: Remove affected person from exposure to fresh air. If breathing becomes difficult give oxygen. If not breathing apply artificial respiration. Seek prompt medical assistance.

Advice to Doctor: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media: This material not flammable, extinguishing media suitable for burning materials.

Specific hazards: The major hazard in fires is the inhalation of heated or toxic fire gases.

Fire Fighting precautions: Fire fighters should wear full protective clothing & self-contained breathing apparatus to minimize exposure. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Remove undamaged containers from the area when safe to do so.

6. ACCIDENTAL RELEASE MEASURES

Spills & Disposal: Minor spills do not normally require any special cleanup measures. Wear full protective clothing when attending spills. In the event of a major spillage prevent entry into the sewer, drainage system & waterways. Contain & collect with inert absorbent material such as sand or soil. Ensure disposal conforms to local waste disposal conditions.

7. HANDLING AND STORAGE

Storage & Transport: Store in a cool, dry, well ventilated area. Keep containers closed and tightly sealed when not in use.

Handling: Repeated or prolonged exposure to product without protective clothing should be avoided to prevent possible tissue damage. It is essential that those who come into contact with the product maintain a good standard of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or going to the toilet.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

<u>Personal Protection:</u> Wear chemical resistant clothing gloves, goggles or glasses. Wash hands after using.

The following WSA standards will provide general advice regarding safety clothing & equipment.

Respiratory equipment: AS/NZA 1715

Protective gloves: AS 2161 Industrial clothing:

AS 2919

Eye protection: AS 1336, AS/NZS 1337

Protective footwear: AS/NZS 2210

Exposure Standards: As with all chemicals exposure should be kept to a minimum.

Engineering Controls: Provide sufficient ventilation. Use exhaust ventilation if required.

Flammability: Product is non-flammable

9. IDENTIFICATION

Physical Description/ Chemical Properties

Appearance: Liquid Colour: Violet

Odour: Pleasant fragrance

pH: 6.0 - 7.5

Vapour Pressure (mmHg @20C): No data available.

Vapour Density (air = 1): No data available.

Boiling Point: 100C approx.

Freezing/Melting Point: <0C.

Solubility in Water: Completely soluble.

Specific Gravity (gm/ml @20C): 1.00 - 1.04

Flash Point: No data available

Flammability Limits (%): No data available.

Auto Ignition Temperature: Does not burn.

Percent Volatiles: No data available.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use & storage.

Materials to Avoid: Oxidizing agents.

Fire decomposition: Only small quantities of decomposition products are expected from this product

at temperatures normally associated with fires.

11. TOXILOGICAL INFORMATION

Exposure routes: Inhalation – No significant effect or hazards

Skin contact - Irritant

Eye contact – Irritant

Acute toxicity: Low oral toxicity LD50: >10,000mg/kg

<u>Carcinogenicity</u> Not classified based on available information.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Do not allow product to enter sewers, drains or waterways.

Biodegradability: Readily biodegradable

Mobility in soil: Will not accumulate in soil or cause long term problems.

13. DISPOSAL CONSIDERATIONS

Disposal Methods: Ensure disposal conforms to local waste disposal regulations.

14. TRANSPORT INFORMATION NOT

CLASSIFIED AS DANGEROUS GOODS

UN Number: N/A **Proper Shipping Name:** N/A

D/G Class: N/A Subsidiary Risk: N/A Packing Group: N/A HazChem Code: N/A

Special Precautions for User: Nil

15. REGULATORY INFORMATION

Poison schedule: Not listed

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

16. OTHER INFORMATION

SAFETY DATA SHEET

Date of issue 17th September 2020

1. IDENTIFICATION OF SUBSTANCE & SUPPLIER

Product name: Strawberry Cologne

Other names: Alcohol based pet coat cologne

Company Name: Tani's Doggy Wash

Address: -

Phone: 0434256817

Recommended Use: Pet cologne

Restrictions on use: This is a pet care, grooming product that is safe for consumers and other

users under normal and reasonably foreseeable use.

Emergency Advice: Poisons Information Centre 13 1126

2. HAZARD IDENTIFICATION

GHS classification: Flammable liquid. Category 3

Serious eye damage/ eye irritation. Category 2

HazChem code: .3Y

Hazard pictograms:

Signal word: WARNING

Hazard Statements: H226 Flammable liquid and vapour.

H319 Causes serious eye irritation.

Precautionary statements: Prevention:

P102 Keep out of reach of children

P210 Keep away from heat, sparks, open flames, hot surfaces. No smoking

P211 Do not spray on open flame or other ignition source.

P233 Keep container tightly closed.

P243 Take precautionary measures against static discharge.

P261 Avoid breathing mist, vapour or spray.

EMERGENCY OVERVIEW

Physical description & colour: Clear slightly coloured liquid

Colour: Slightly coloured

Odour: Pleasant strawberry fragrance

Major Health Hazards: Eye irritant

POTENTIAL HEALTH EFFECTS

Inhalation:

Short term exposure: Significant inhalation exposure considered unlikely. May cause slight irritation, unlikely to cause anything more than slight discomfort.

Long term exposure: No data for health effects associated with long term inhalation.

Skin contact:

Short term exposure: Available data indicates that this product is not harmful. However, it may cause slight irritation

Long term exposure: No data for health effects associated with long term exposure.

Eye contact:

Short term exposure: Exposure to eyes is considered unlikely. This product is an eye irritant. Symptoms may include stinging & reddening of the eyes & watering which may become copious. Other symptoms may also become evident. If exposure is brief symptoms should disappear once exposure has ceased. However lengthy exposure or delayed treatment may cause permanent damage.

Long term exposure: No data for health effects associated with long term exposure.

Ingestion:

Short term ingestion: Significant oral exposure is considered unlikely. However, this product is believed to be mildly irritating to mucous membranes, but unlikely to cause anything more than mild discomfort.

Long term exposure: No data for health effects associated with long term ingestion.

Carcinogenic status:

No significant constituent is classified as carcinogenic.

3. COMPOSITION / INFORMATION ON CONSTITUENTS

Chemical Name:	CAS#	Proportion
Ethyl Alcohol	64-17-5	>60%
Other constituents deemed non-hazardous		To 100%

4. FIRST AID MEASURES

<u>Swallowed:</u> DO NOT induce vomiting rinse mouth with fresh water. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Physical Description/ Chemical Properties

Appearance: Viscous liquid

Colour: Pink

Odour: Pleasant candy fragrance

pH: 4.0 - 6.0

Vapour Pressure (mmHg @20C): No data available.

Vapour Density (air = 1): No data available.

Boiling Point: 100C approx.

Freezing/Melting Point: <0C.

Solubility in Water: Completely soluble.

Specific Gravity (gm/ml @20C): 10.96 - 1.0

Flash Point: No data available

Flammability Limits (%): No data available.

Auto Ignition Temperature: Does not burn.

Percent Volatiles: No data available.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use & storage.

Materials to Avoid: Oxidizing agents.

Fire decomposition: Only small quantities of decomposition products are expected from this product

at temperatures normally associated with fires.

11. TOXILOGICAL INFORMATION

Exposure routes: Inhalation – No significant effect or hazards

Skin contact - Irritant

Eye contact – Irritant

Acute toxicity: Low oral toxicity LD50: >10,000mg/kg

Carcinogenicity: Not classified based on available information.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Do not allow product to enter sewers, drains or waterways.

Biodegradability: Readily biodegradable

Mobility in soil: Will not accumulate in soil or cause long term problems.

13. DISPOSAL CONSIDERATIONS

Disposal Methods: Ensure disposal conforms to local waste disposal regulations.

14. TRANSPORT INFORMATION

NOT CLASSIFIED AS DANGEROUS GOODS

UN Number: N/A **Proper Shipping Name:** N/A

D/G Class: N/A Subsidiary Risk: N/A

Packing Group: N/A HazChem Code: N/A

Special Precautions for User: Nil

15. REGULATORY INFORMATION

Poison schedule: Not listed

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

16. OTHER INFORMATION

Date of Preparation: 9th August 2020 Issue

Date: 17th September 2020

Supersedes:

Reason for Update: Released in compliance with Global Harmonized System.

The information sourced for the preparation of this document was correct and complete at the time of writing, to the best of the writer's knowledge. The document represents the commitment to the company's responsibilities surrounding the supply of this product, undertaken in good faith. This document should be taken as a safety guide for the product and its intended use, but is in no way an absolute authority. Please consult the relevant legislation and regulations governing the use and storage of this product.

SAFETY DATA SHEET

Date of issue 17th September 2020

1. IDENTIFICATION OF SUBSTANCE & SUPPLIER

Product name: Candylicious Disinfectant

Other names: Hospital Grade Disinfectant

Company Name: Tani's Mobile Doggy Wash

Address: -

Phone: 0434256817

Recommended Use: General purpose hospital grade disinfectant.

Restrictions on use: This is a concentrated disinfectant product that when diluted as per recommendations is safe for consumers and other users under normal and reasonably foreseeable

use.

Emergency Advice: Poisons Information Centre 13 1126

2. HAZARD IDENTIFICATION

ADG Classification: Not classified as Dangerous goods according to Australian Dangerous Goods (ADG) Code

SUSMP Classification:

Hazard statement: Classified as HAZARDOUS according to the criteria of Safe Work Australia (SWA).

Hazard Classification:

Skin corrosion/irritation - Category 2

Serious eye damage/irritation - Category 2A

Acute hazard to aquatic environment - Category 3

GHS classification:

Xi Irritant

Risk Phrase: R36 – Irritating to eyes

R38 – irritating to skin **HazChem code:**

Hazard pictograms:

Signal word: WARNING

Hazard Statements:

H315 Causes skin irritation

H319 Causes serious eye irritation

H402 Harmful to aquatic life

Precautionary statements:

Prevention:

P102 Keep out of reach of children

P103 Read label before use.

P264 Wash contacted areas thoroughly after handling. P270 Do not eat, drink or smoke while using this product

P273 Avoid release to environment

P280 Wear protected gloves, protective clothing & eye or face protection.

Response:

P101 If medical advice is needed have product container or label at hand.

P310 Immediately call a POISONS CENTRE 131 126, or doctor.

P363 Wash contaminated clothing before reuse

P301+P330+P353 If on skin or in hair, remove all contaminated clothing, rinse skin with water

P304+P340 If inhaled remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305 + P351 + P338 IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do, continue rinsing.

P332 + P313 If skin irritation occurs get medical attention

P337+ P313 If eye irritation persists get medical attention.

Storage: P411 Store at temperature below 30C Do not freeze

P402+P404 Store in a dry place. Store in closed container.

Disposal: P501 If they cannot be recycled, dispose of contents to an

approved waste disposal plant and containers to land fill.

EMERGENCY OVERVIEW

Physical description: Pink clear liquid

Colour: Pink

Odour: Pleasant candy fragrance

Major Health Hazards: Causes skin irritation, causes eye irritation.

Carcinogenic status:

No significant constituent is classified as carcinogenic.

3. COMPOSITION / INFORMATION ON CONSTITUENTS

Chemical Name:	CAS#	Proportion
Benzalkonium chloride	68424-85-1	< 20%
Non-ionic surfactants	mixed	<10%
Other constituents deemed non-hazardous Commercial secret		<5%
Water		To 100%

4. FIRST AID MEASURES

General Information: Call the Poison Information Centre 13 1126, if you believe that you have been affected. Have a copy of this SDS with you when you call.

<u>Swallowed:</u> DO NOT induce vomiting rinse mouth with fresh water. Never give anything by mouth to an unconscious person. **Seek immediate medical attention**.

Eyes: Flush eyes with copious amounts of water for 20 - 30 minutes holding eyelids open. Remove contact lenses if present. **Seek immediate medical attention**.

Skin: Wash skin thoroughly with soap and water for 20 minutes. Seek immediate medical attention

<u>Inhaled</u>: Remove affected person from exposure to fresh air. If breathing becomes difficult give oxygen. If not breathing apply artificial respiration. Seek prompt medical assistance.

Advice to Doctor: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media: This material not flammable, extinguishing media suitable for burning materials.

Specific hazards: The major hazard in fires is the inhalation of heated or toxic fire gases.

Fire Fighting precautions: Fire fighters should wear full protective clothing & self-contained breathing apparatus to minimize exposure. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Remove undamaged containers from the area when safe to do so.

6. ACCIDENTAL RELEASE MEASURES

Spills & Disposal: Minor spills do not normally require any special cleanup measures. **Wear full protective clothing when attending spills**. In the event of a major spillage prevent entry into the sewer, drainage system & waterways. Contain & collect with inert absorbent material such as sand or soil. Ensure disposal conforms to local waste disposal conditions.

7. HANDLING AND STORAGE

Storage & Transport: Store in a cool, dry, well ventilated area. Keep containers closed and tightly sealed when not in use.

Handling: Repeated or prolonged exposure to product without protective clothing should be avoided to prevent possible tissue damage. It is essential that those who come into contact with the product maintain a good standard of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or going to the toilet.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

<u>Personal Protection:</u> Wear chemical resistant clothing gloves, goggles or glasses. Wash hands after using.

The following WSA standards will provide general advice regarding safety clothing & equipment. Respiratory equipment: AS/NZA 1715

Protective gloves: AS 2161 Industrial

clothing: AS 2919

Eye protection: AS 1336, AS/NZS 1337

Protective footwear: AS/NZS 2210

SWA Exposure Limits: TWA (mg/m3) STEL (mg/m3)

Exposure limits have not been established by SWA for any of the significant ingredients in this product.

Exposure Standards: As with all chemicals exposure should be kept to a minimum.

<u>Engineering Controls:</u> Use only in a well-ventilated area. Provide sufficient ventilation. Use exhaust ventilation if required.

Flammability: Product is non-flammable

9. IDENTIFICATION

Physical Description/ Chemical Properties

Appearance: Pink clear liquid

Colour: Pink

Odour: Pleasant candy fragrance

pH: 6.5 – 8.5

Vapour Pressure (mmHg @20C): No data available.

Vapour Density (air = 1): No data available.

Boiling Point: 100C approx.

Freezing/Melting Point: <0C.

Solubility in Water: Completely soluble.

Specific Gravity (gm/ml @20C): 0.99 – 1.02

Flash Point: No data available

Flammability Limits (%): No data available.

Auto Ignition Temperature: Does not burn.

Percent Volatiles: No data available.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use & storage.

Materials to Avoid: Strong acids, Strong oxidizing agents.

Fire decomposition: Only small quantities of decomposition products are expected from this product at temperatures normally associated with fires.

11. TOXILOGICAL INFORMATION

Local Effects Target Organs:

There is no data to hand indicating any particular organs.

Classification of Hazardous Ingredients

Acute Effects:

Inhalation: Material may be an irritant to mucous membranes and respiratory tract.

Skin contact: Contact with skin will result in irritation.

Ingestion: Swallowing can result in nausea, vomiting and irritation of the gastrointestinal tract.

Eye contact: An eye irritant.

Acute toxicity: Material has been classified as non-hazardous.

Carcinogenicity Not classified based on available information.

12. ECOLOGICAL INFORMATION

<u>Ecotoxicity:</u> This product is very toxic to aquatic organisms. Do not allow product to enter sewers, drains or waterways.

Benzalkonium chloride, EC50 (48hr) Daphnia Magna = 0.016mg/L

Biodegradability: Not readily biodegradable

13. DISPOSAL CONSIDERATIONS

Disposal Methods: This product may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for intended use. If it has been contaminated it may be possible to separate the

contamination in some way. If neither option is suitable it is recommended that a specialist disposal company be engaged to arrange disposal.

14. TRANSPORT INFORMATION

NOT CLASSIFIED AS DANGEROUS GOODS

UN Number: Proper Shipping Name: D/G Class

Special Provisions: Packing Group:

HazChem Code:

15. REGULATORY INFORMATION

Poison schedule:

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

16. OTHER INFORMATION

Date of Preparation: 16th September 2020

Issue Date: 17th September 2020

Supersedes:

Reason for Update: New product release to comply with Global Harmonized System.
